## Building

Our office is centrally situated just outside the heart of Grey Lynn. Located in The Laundry Building - a great space to do business! Rumour has it the Laundry building started life as a maternity hospital before being turned into a Chinese laundry (hence its name!). After being run down for many years, the building was given a new lease on life in 2009 and redeveloped into office space which is a treasure chest of creative business for the Auckland region.

## Car Parking

Customer car parking is available and is located to the left of the glass entry doors to the building with a sign in front saying: "96black customer park"
